Welcome

to the Bella Vista Accommodation Network

The Bella Vista Story

The founder of the Bella Vista Accommodation Network was the late Ian Little.

Ian travelled extensively for both business and pleasure around New Zealand. Whilst travelling, Ian realised consistency and reliability were two key components necessary to ease the stress of travelling. He understood that predictability can allay the numerous choices faced by guests so that they can focus on the business or pleasure at hand. Hence his vision of a nationwide network to accommodate guests was born.

Our Strategy

Focus on consistency to enhance our customers experience and leverage our network potential.

#TrustBellaVista

Individual motels within the Bella Vista network benefit from the same building design and colour scheme, making each site easily recognisable and convenient to access.

The Bella Vista business model is designed around individual ownership of the network's motel businesses, much like a franchise. Each motel has separate business owners who are wholly responsible for the daily operation in their location. This model ensures an absolute commitment to quality and guests can enjoy and trust the hospitality of hosts who not only intimately know the surrounding area, but are personally proud to represent Bella Vista as their own.

Bella Vista is proud to be locally owned and operated.

The Bella Vista **Vision**

Our Story

You know what you're going to get, why stay anywhere else? Bella Vista is your first choice

Our aim is to offer **Excellence in Accommodation** throughout New Zealand. All Bella Vista's have a common national business and marketing strategy complimented by a bespoke local plan. Operators are assisted by our sales and business development team ensuring every commercial opportunity is captured. Bella Vista's exterior and interior design is supported by a dedicated specialist guaranteeing every location sustains quality, consistency and business success.

The Bella Vista **Culture**

Our network culture is a key facet of our network's success and we encourage an open and supportive community in which our operators collaboratively enhance Bella Vista's competitive advantage

We always strive to continually improve and enhance both our operators capability and our guest experience. All operators are encouraged to contribute their ideas. Ongoing education and inspiration is vital to our shared success.

Our Promise

Rest assured. You will instantly know what to expect, enjoying comfort and convenience every stay.

Why is the Bella Vista Brand Important?

Trust

Every traveller seeks assurances in knowing what they can expect from their accommodation choice. The Bella Vista brand creates a template for quality and consistency which every traveller can trust.

Support

Working as part of a group enables operators to learn, grow and deliver best practice quickly, consistently and collaboratively.

Strength

A collective is always more powerful than the individual. The Bella Vista brand offers collective knowledge, enhanced spending opportunity and significant national exposure.

Recognition

There is no other national motel chain like Bella Vista; the Bella Vista brand is a promise, and a promise must be kept.

Owner's Testimonials

"Before we even opened our motel we were able to contact other Bella Vista operators to get some idea of how their individual businesses were run. In fact we were able to stay with several to learn their operating systems. It was a huge advantage to be able to have a hands-on experience in an almost duplicate motel."

"Once we opened our motel the support from the rest of the group was invaluable. As we were new to motelling we were initially very stressed in trying to cope with a number of things, including the computer booking systems, invoicing, telephone systems plus the day to day running of the motel. It was reassuring to know we could call any number of other BV operators at any time to get help and advice."

"Being part of a New Zealand individually owned chain of motels was a great advantage over our opposition as we forwarded and received many bookings from our fellow Bella Vista operators. We also shared and gave each other ideas in trying to keep up with a constantly and rapidly changing tourism industry."

"Combining our advertising funds meant we were able to keep the likes of our website up to date, making it easy for New Zealand and overseas customers to book. "

"We liked the freedom of running our own business while benefitting from the support of the group management and our fellow moteliers in terms of IT, purchasing and networking. In addition, the work undertaken by the group's sales and marketing manager enabled us to access clients that we would not have reached as an independent motel and to help us grow our business."
